Wrocław, PL

## EDUCATION

**Master of Engineering**  
Politechnika Wrocławska | Poland  
GPA 4.71/5

**Bachelor of Engineering**  
Universitas Gadjah Mada | Indonesia  
GPA 3.59/4

**Hokkaido University | Japan**  
exchange program

## EXPERTISE

**HTML (3+ years)**  
HTML5, Pug

**Javascript (3+ years)**  
JS Frameworks (Vue.js, Angular, React), server side development (Nuxt), testing (Jest, Cypress), type-safe dev (Typescripts), documentation (Storybook), other libraries (jQuery, Axios, Lodash, i18n, moment, etc.), clean code (eslint, prettier), Grunt

**CSS (3+ years)**  
Vanilla CSS, SASS/SCSS, LESS, CSS Frameworks (Bootstrap, Vuetify, Quasar), TailwindCSS, Bulma

**Python (1+ year)**  
Data engineering (pandas, numpy), data visualization (Dash, Plotly), DL/ML (PyTorch, Transformers, sklearn), data scraping (BeautifulSoup, Selenium)

**Web & Graphic Design (3+ years)**  
Photoshop, Figma, Balsamiq, Canva

**Containerization (1+ year)**  
Docker

**Others (< 1 year)**  
PHP, React Native, Flutter, Java, Ruby on Rails

## LANGUAGE

English (C1)      Polish (A2)  
Indonesia (Native)      Japanese (N4)

## PUBLICATION

StudEmo: A Non-aggregated Review Dataset for Personalized Emotion Recognition  
(Ngo et al., NLPerspectives 2022)

## ABOUT ME

Hello, I am an **experienced front-end developer** with nearly **4 years of expertise** particularly in front end development with **Vue.js**. I have solid experiences in testing (**Jest**, **Cypress**), server-side dev (**Nuxt**), containerization (**Docker**), REST API (**Axios**), with some knowledges of other FW (**Angular**, **React**), w/wo **Typescripts** and w/wo **CSS frameworks**. In my spare time, I enjoy learning about Japanese culture, sparring at Codewars and playing Candy Crush 🍬

## WORK EXPERIENCE

Clarín-PL | Poland | 2022 - Present  
Software Developer (Python, Vue.js)

- Collaborating with the backend team and researchers on **text annotation tools** for affective NLP and human feedback tasks.
- Working on **multiple DL/ML projects in the NLP field (multi-task model and emotion recognition)** to process data, develop ML models, and visualize results.
- Creating **scraper bots** for multiple websites using BeautifulSoup + Selenium.
- Developing and maintaining interfaces using Vue + SCSS + Typescript
- Administering DB and deployments using Python, SQLite, Elasticsearch and Docker

Mamikos.com | Indonesia | 2020  
Senior Front End Developer (Vue.js)

- Collaborating with the product team, backend team, designers, and testers on a **house rental system** in a fast-paced environment, using Scrum and delivering results in iterative cycles with a QDD (Quality-Driven Development) approach.
- Developing and maintaining interfaces using Vue + SCSS
- Creating and maintaining unit tests using Jest.

Hrmlabs.com | Adeptforms.com | Indonesia | 2018 - 2022  
Front End Developer (Vue.js, JQuery, React Native)

- Collaborating with the backend team on a **human resource management system and a form management system** in a fast-paced environment.
- Designing, developing, and maintaining interfaces on PHP based web apps and native SPA web apps using Vue.js + SCSS + JQuery
- Developing and maintaining mobile apps using React Native
- Mentoring and providing guidance to interns and new hires, assisting them in comprehending the codebase and development processes.

Indonesia | 2017 - 2018  
Freelance (jQuery)

- Designing and developing **Wordpress-themed websites** (jQuery, Vanilla CSS)

## ACHIEVEMENTS

**Ignacy Łukasiewicz scholarship (2020-2023) | NAWA | Poland**

- Fully funded scholarship to study Polish language and Master degree in Polish universities

**JASSO scholarship (2016-2017) | JASSO | Japan**

- Fully funded scholarship to study in Japanese universities
